DEFLECT IT. PROTECT IT.
EXPERIENCE IT.

STAMPEDE
AUTOMOTIVE ACCESSORIES

Beat the elements and add some attitude to your Truck, Van or SUV. With Sidewind Deflectors you can keep your windows partially open, providing ventilation to your interior. Today's modern aerodynamic body styles, with form fitting doors and windows, no longer feature rain gutters to channel away water, which lets it drip into your interior. Sidewind Deflectors act like a "drip-edge" for your vehicle, keeping rain out. They also eliminate stale air and reduce interior wind noise, fogging and heat.

- Precision engineered to fit your vehicle
- Easy installation: no special hardware or drilling required and attached with 3M™ automotive-grade adhesive
- Car-wash safe
- UV and scratch-resistant
- Limited Lifetime Warranty

Tape-Onz Sidewind Deflectors

Ford F-150 Shown • Carbon Fiber

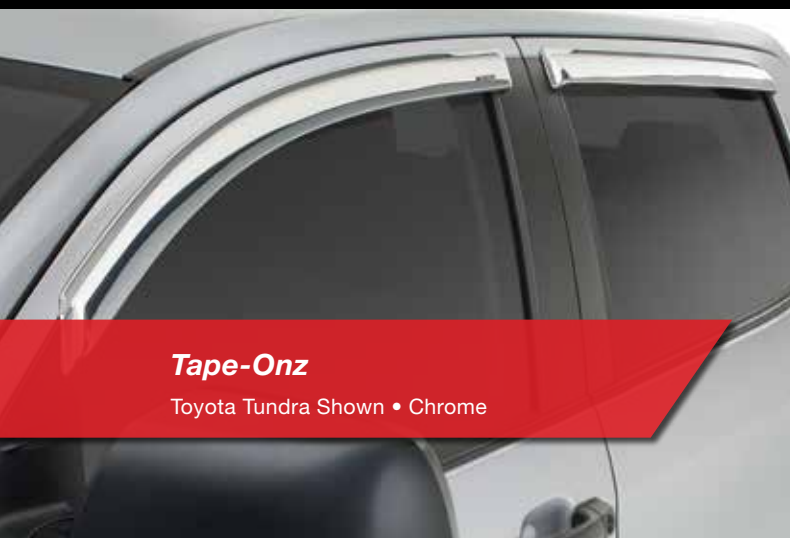

AVAILABLE IN CAMO PATTERNS

Enjoy maximum protection with Hood Protectors designed to complement the look of your vehicle. Stampede Automotive Accessories Hood Protectors take the original Bug Shield to a new level. Our knowledge of aerodynamics reveal - taller isn't necessarily better - it's the shape that matters. High profile, full-wrap style with deflection provides complete hood, fender and windshield protection from road debris, rocks, bugs and more.

- Precision engineered to fit your vehicle
- Easy installation: no special hardware or drilling required and attaches with 3M™ automotive-grade adhesive
- Car-wash safe
- UV and scratch-resistant
- Limited Lifetime Warranty
